## Cunfigurare motores de chirca in unu navigadore Firefox

Gràzias a su complementu [Custom Search Engine](#) de su navigadore Mozilla Firefox, podimus atzèdere in manera prus lestra a is resurtados de chirca de resursas chi impreamu a fitianu in sardu, comente [Apertium](#) o su Ditzionàriu. A pustis de s'installazione, cunfigura is tres resursas comente si bidet in s'immàgine in bàsciu (testu a suta).

## Custom Search Engine Options

Enter your search engine details for custom search engine plugin below:

Search Url must contain either {searchTerms} or {searchTerms[x]} where x can range from 0 to 9 in any order or any number of times.

<input type="checkbox"/> Delete	Key*	Search Engine Name*	Url*	Description
<input type="checkbox"/>	casc	Apertium ca-sc	https://www.apertium.org/index.cat.html?dir=cat-s	Apertium ca-sc
<input type="checkbox"/>	it-sc	Apertium it-sc	lex.cat.html?dir=it-sc&q={searchTerms}#translation	Apertium it-sc
<input type="checkbox"/>	ditz	Ditzionàriu.org	itzionariu.sardegnaicultura.it/faeddu/{searchTerms}	Ditzionàriu.org

Row(s) deleted.

**Load From File:**  No s'ha seleccionat cap fitxer.

(Above data will be merged & overwritten by data from file based on 'Key'. Empty 'Key' fields will be ignored.)

**Show Saved Preference Text which can be store to file:**

Inoghe agatas is testos in manera chi podes copiare e incollare:

**Apertium ca-sc:**

https://www.apertium.org/inden.cat.rhtml?dir=cat-srd&q={searchTerms}#translation

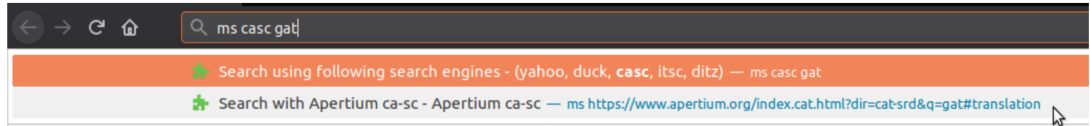

**Apertium it-sc:**

https://www.apertium.org/inden.cat.rhtml?dir=it-sc&q={searchTerms}#translation

**Ditzionàriu.org:** http://ditzionariu.sardegnaicultura.it/faeddu/{searchTerms}

Una borta cunfiguradu su complementu, as a pòdere atzèdere a is resurtados de is chircas a is motores mentovados dae sa barra de chirca de Firefox, iscriende su faeddu ms, sighidu dae sa crae ("key", in s'immàgine 1) e sa chirca, comente pro esèmpiu:

m casc gat

At a abèrrere sa resursa Apertium in sa cumbinatzione catalanu-sardu e at a ammustrare sa traduzione de su faeddu gat ('gatu').
